

## Helping you find the perfect AI solution for your proposals

MyProposalPathway is a low cost (\$500 USD), rapid, and innovative service designed to help you to navigate the complex landscape of AI and automation tools for proposals and bids. This service provides an initial assessment of your needs to give you a set of specific recommendations.

Here's how it works:

1

**Online self-assessment:** 15-minute online self-assessment to evaluate the complexities and volumes of the proposals and bids that your organisation handles.

2

**Recommendation:** We provide an initial and instant tool recommendation based on your assessment, informed by over 400 hours of market analysis.

3

**Expert consultation:** 45-minute consultation and with one of our experts to share our report and discuss the findings and recommendations.

## Benefits

By engaging in our MyProposalPathway service, you will:

Avoid spending hundreds of hours comparing tools via web research and vendor demos

Gain a clear and independent view on the tools that are best suited to your needs

Understand follow-on support options including business case development, change management and implementation

MyProposalPathway is an invaluable service for companies looking to optimise processes and increase win rates.

Using our expertise and assessment capabilities, you can build a clear plan on which tools can help you gain competitive advantage.
